

MAY 2024

Hello my beautiful friends,

Wow, is all I have to say about this year and these incredible flaming dragon energies! Everything is up for change and it is, at exceptional speed and intensity!

I can't stress enough the importance for each of you to find your balance, keep grounded, self care and to grow within your spiritual community for support. I have a new series beginning April 30th, "Channel Your Gifts". I love these series and teachings as they are trance channeled messages from ancient ones, masters, angels and universal beings of light. They each provide profound wisdom as well as strategies and practical techniques for insight, development and personal integration. I have included a short video message from Jamar one of my guides, from our last series that I thought you would enjoy. Love to have you join us too!

What an honor to be interviewed by Julie Andreani on Bold Brave TV, I attached a link for you to see as well. I was thrilled to receive another certification! Remember dear ones, education and building your community is a gift to SELF!

Blessing of Love & Light, until we meet again!

Rev. Judi

LEMURIA & LIGHT LANGUAGE

Are you ready to go on a deeper exploration within self? Light Language is a form of communication far beyond the limitation of simple words. The true power and energy of light language provides a tone and frequency recalibration for the mind, body and soul. This energy taps into your soul code consciousness to access lifetimes of wisdom providing you with a deeper understanding and guidance for your sacred life path.

Jamar is an Elder Lemurian and Guide to Spiritual Trance Channel Rev. Judi Weaver, who will alter her state of consciousness allowing for his clear communication and ancient wisdom to be shared as well as vibrational upgrades through the use of Light Language and Crystal energies. Guidance messages for each guest will be gifted by Elder Lemurian Jamar as channeled by Rev. Judi.

This workshop will be hosted through **Lily Dale, NY via ZOOM, tickets \$50.**
